

DOG FANCY

HELP YOUR DOG FIGHT CANCER: AN OVERVIEW OF HOME CARE OPTIONS

Laurie Kaplan
(JanGen Press, \$19.95)

After helping Bullet, her Siberian Husky, fight the dreaded Big C, the author resigned her position as editor of *Catnip* magazine to write this life-preserver guidebook. Gentle, accessible, and full of hope, Kaplan's book offers an understandable overview of cancer pathology and treatment. With contributions from 10 different veterinary experts, the text covers supplements, diets, chemotherapy, and both traditional and holistic approaches. Anyone in the unfortunate position to need this information will benefit greatly from her reporter's skill at research, her editor's gift for making tough material readable, and her personal experience — which yielded usable tips like how to get a canine chemo patient to eat: with meat Jell-O and frozen smelts.
